

Gulfport Combat Readiness Training Center

Fire Department

Gulfport CRTC consistently provides some of the best training environments for the United States military, fire and emergency services response personnel. Gulfport Fire and Emergency Services provides the Air Force with a training venue that focuses on peacetime and contingency firefighting operations generally not available at home station. Fire departments spend a considerable amount of time developing a structured annual training plan that sets the standard for what training should be conducted throughout a fiscal or calendar year to meet specific training requirements and effectively track training hours. Here at CRTC, we have the capability and the facilities to provide training on real life emergencies we may respond to led by subject matter experts that are constantly upgrading their expertise to meet ever-evolving dangers by providing training in the following disciplines:

- Interior Structural Live Fire
- Search and Rescue from Structural Live Fire
- Ventilation
- Ladder Training
- Forcible Entry
- Fire Stream Techniques
- Salvage and Overhaul
- ARFF Live Fire Interior and Exterior
- Vehicle Rescue and Extrication
- High and Low Angle Rope Rescue
- Search and Rescue from Confined Space
- Hazardous Materials
